

Session 5

Local Mission Project

Purpose: To provide a mini-missions experience for groups as they prepare for their Mission Serve project.

Overview: Every group attending a Mission Serve project is encouraged to participate in a local missions project. The project will help prepare your students for their upcoming missions experience. This will also help you see how your students will interact on the mission field. We encourage you to also use this experience as a time for evangelism training as well.

Groups have worked with local government agencies, non-profits and churches to find homeowners and clients for their local projects. Many groups have served through the following ways.

One-day work project, such as:

- Building wheelchair ramps
- Painting projects
- Minor roofing
- Yard clean up

Other service ideas include:

- Soup kitchens
- Nursing home ministry
- Sports camps
- Backyard Bible Clubs

For other project ideas visit one of partners, Operation Inasmuch, at operationinasmuch.com. If you need help finding opportunities to serve then please contact us at info@mission-serve.com.
